Not responsive

Dr. J. H. Jones,

Boiling, heating, pouring &
 drying the bones by increasing
 due to evaporation could be due
 from mechanical stress, the movement
 of the material (but no doing it out
 to make the area attractive for
 modern activities by drying and
 with cleaning up its body and
 the addition of drying particles.

Dear Sir,
 The members of Mervin Spelman
 Club protest the permit granted
 Burns Club, a large of thousands (who)
 to procure big birds with out permit
 the permit. We feel that protection
 of the prairie will be helping
 to all wildlife in and about Big
 Sandy.

Not responsive
